A Project Report

On

Project title

Submitted to

University of Mumbai

In partial fulfillment of the requirements for the degree of

Bachelor of Engineering
in

Computer Engineering

by

Name of Student 1 (Roll No.)
Name of Student 2 (Roll No.)
Name of Student 3 (Roll No.)
Name of Student 4 (Roll No.)

Supervisor
(Name of Supervisor)

Department of Computer Engineering
Anjuman-I-Islam's Kalsekar Technical Campus
School of Engineering and Technology

An Autonomous Institute Affiliated to University of Mumbai

Plot No. 2 & 3, Sector -16, Near Thana Naka, Khanda Gaon,
New Panvel, Navi Mumbai. 410206

October 2026

Anjuman-I-Islam's Kalsekar Technical Campus
School of Engineering and Technology
An Autonomous Institute Affiliated to University of Mumbai

Certificate

This is to certify that, the Major Project – I entitled

"Project Title"

is a bonafide work done by

Name of Student 1 (Roll No.)
Name of Student 2 (Roll No.)
Name of Student 3 (Roll No.)
Name of Student 4 (Roll No.)

and is submitted in the partial fulfillment of the requirement for the degree of

Bachelor of Engineering

in

Computer Engineering

Submitted to

University of mumbai

मुंबई विद्यापीठ

Project Guide **(Prof. Guide Name)**	Project Coordinator **(Prof. Nusrat Jahan)**
Head of Department **(Prof. Tabrez Khan)**	Dean (SoET) **(Dr. Rajendra Magar)**

Major Project – I Approval

This is to certify that the Project entitled ***" Porject Title "*** is a bonafide work done by ***Name of Student 1 (Roll No)***, ***Name of Student 2 (Roll No)***, ***Name of Student 3 (Roll No)***, ***Name of Student 4 (Roll No)*** under the supervision of ***guide name***. This project is approved in the partial fulfillment of the requirement for the degree of ***B.E. in Computer Engineering***.

Declaration

We declare that this written submission represents our ideas and does not involve plagiarism. We have adequately cited and referenced the original sources wherever others' ideas or words have been included. We also declare that we have adhered to all principles of academic honesty and integrity and have not misrepresented or fabricated or falsified any idea/data/fact/source in our submission. We understand that any violation of the above will be cause for disciplinary action against us by the Institute and can also evoke penal action from the sources which have thus not been properly cited or from whom proper permission has not been taken when needed.

Name of Student 1 (Roll No.)
Name of Student 2 (Roll No.)
Name of Student 3 (Roll No.)
Name of Student 4 (Roll No.)

Abstract

This is expected to be a precise document of the entire report. It should introduce to the reader the basic objective of the work reported and how far this objective has been achieved with a brief, clear and precise description of the methodology of the said achievement.

Contents

Abstract **i**

List of Figures **ii**

List of Tables **ii**

1 Introduction **1**

1.1 Overview 1

1.2 Motivation 1

1.3 Objectives 2

1.4 Organization of the report 2

2 Literature Survey **3**

2.1 Survey of Existing System 3

2.2 Limitations of Existing System or Research Gap 3

3 Proposed System **4**

3.1 Problem Statement 4

3.2 System Architecture 4

3.3 Proposed Methodology/Techniques 5

3.4 Details of Hardware/Software Requirement 5

4 Planning and System Design **6**

4.1 Schedule for Project 6

4.2 System Design 6

5 Implementation Plan **7**

5.1 Implementation Plan For Current Semester 7

5.2 Implementation Plan For Next Semester 7

6 Conclusion and Future Work **8**

References **9**

A Plagiarism Report **10**

Acknowledgement **11**

List of Figures

3.1 Sample Figure 4

List of Tables

1.1 Name of Students 1

Chapter 1

Introduction

Introduction should be based on the real time observation of your problem domain around us w.r.t issues faced by the common people.

1.1 Overview

Introduction should be based on the
real time observation of your problem domain around us w.r.t issues faced by the *common* people.

The following is the way to include table in latex. The Table 1.1 shows the Name of the Students.

Table 1.1: Name of Students

Name	**Roll No.**
Mr. ABC	(23CO02)
Mr. XYZ	(23CO03)
Ms. PQR	(23CO04)

1.2 Motivation

Which observations strongly motivated you to take up this problem domain to work

1.3 Objectives

What issues you want to solve by proposing a solution as part of this project. The main objectives are:

1. Objective 1...
2. Objective 2...

1.4 Organization of the report

The report is organised as follows: The Chapter 2 reviews the literature. Chapter 3 focuses on defining the systemś issue. That includes problem categorization, proposed technologies, device architecture, and hardware/software requirements. On the other hand, Chapter 5 describes the inference and future work on the technique to be utilized as a more improved model.

Chapter 2

Literature Survey

The primary objective of this chapter is to introduce to the reader suggestive literature that led to the identification and subsequent selection of the task. The chapter should provide all the salient features provided by the existing available system. Also, limitations of available solutions should be mentioned. The work can include survey of the people who use these solutions / potential users of this solution w.r.t. their requirements and improvements expected. The survey of the technologies and methodologies used in the existing solutions can also be highlighted. This should end introducing to the reader the general overall observations of the survey as the concluding paragraph.

2.1 Survey of Existing System

The references can be cited as [1].

2.2 Limitations of Existing System or Research Gap

Chapter 3

Proposed System

Methodology/Techniques..

3.1 Problem Statement

This section should list all salient features incorporated in the proposed system. The statement framed should elaborate all the key points addressed. The general architecture diagram / abstract diagram can be presented. Use citations to justify your reasons to choose / modify.

3.2 System Architecture

Provide and explain general architecture diagram / abstract diagram / modular diagram. Provide details about the major components or modules and their functions. //

The following is way to include figures in latex. Figure 3.1 is the sample figure.

Figure 3.1: Sample Figure

3.3 Proposed Methodology/Techniques

All techniques / methods / algorithms which will be using in proposed system, their theory (technical details) need to be explained in detail and also need to highlight the customization / modifications done. Highlighting the proposed changes with fine detailed explanation is the very important part of the whole project as it talks about your proposed changes. It is the value addition from you to solve this problem.
The following Eq.3.1 is the....

$$\beta \leftarrow \frac{5(\pi - 1)}{\lambda^2} \tag{3.1}$$

3.4 Details of Hardware/Software Requirement

List the details of hardware and software required for the implementation of proposed system.

Chapter 4

Planning and System Design

4.1 Schedule for Project

Include complete plan and schedule of implementation of project in form of Gnatt chart or any other tool.

4.2 System Design

System Design using various Structured analysis and design tools such as : DFD's,Data Dictionary,Structured charts,Flowcharts, UML diagrams, User Interface Design, Database Design

Chapter 5

Implementation Plan

5.1 Implementation Plan For Current Semester

5.2 Implementation Plan For Next Semester

Chapter 6

Conclusion and Future Work

This chapter should include few important points that made this project worth doing. It should start with the project purpose and whether you achieved it along with proper justifications. Your most important learning and observations can be added to conclusion. Future scope can also be added to this chapter.

ACKNOWLEDGMENT

We take this opportunity to express our profound gratitude and deep regards to our guide **Dr./Mr./Mrs. Name of the Guide** for his/her exemplary guidance, monitoring and constant encouragement throughout the completion of this report. We truly grateful to his/her efforts to improve our understanding towards various concepts and technical skills required in our project. The blessing, help and guidance given by him/her time to time shall carry us a long way in the journey of life on which we are about to embark. We take this privilege to express our sincere thanks to **Dr. Ramjan A. Khatik**, Director, AIKTC and **Dr. Rajendra Magar**, Dean, SoET for providing the much necessary facilities. We are also thankful to **Prof. Tabrez Khan**, Head of Department of Computer Engineering and Project Coordinator **Prof. Nusrat Jahan**, Department of Computer Engineering, AIKTC, New Panvel, Navi Mumbai for their generous support. Last but not the least we would also like to thank all those who have directly or indirectly helped us in completion of this thesis.
